

Early Legal Intervention for Better Health Outcomes: Domestic Violence

Presented By:

Gisele M. Lemieux, Paralegal ~ Brenda Golden Hallisey, JD
New Hampshire Legal Assistance

Summary

These trainings will give the health care provider a basic understanding of domestic violence and various legal interventions that can impact the health outcomes of their clients. Providers will be given screening tools that can identify the impact of domestic violence on other aspects of patient's life. Fact sheets will give participants knowledge of when and how to make a referral to legal assistance.

After attending this program, you will be able to:

- Define and describe abuse, restraining orders, and stalking petitions
- Use screening tools to identify when a domestic violence situation has other, co-occurring legal issues associated with it in order to make an effective referral.
- Describe how to access legal resources to assist your clients

Target Audience

Physicians, Nurse Practitioners, Physician Assistants, Registered Nurses, and Social Workers.

Continuing Education

This continuing education activity has been approved for 1 Category 1 Credit toward the AMA Physicians Recognition Award and 1.0 Contact Hours for Nurses.
